

# LYNDSAY CRESPO

## JUNIOR WEB DEVELOPER

### ABOUT ME

I am a developer, writer, designer, and project manager. I studied urban planning in college; since then, my work has addressed needs for education, housing, and community and economic development in Mexico and the US. In my current role, I've raised over \$13 million in funding to implement cross-sector projects in a high-poverty, high-opportunity community. In my next role, I would like to utilize my web development skills in service to a social impact mission.

### PERSONAL SKILLS

- Identifying user needs
- Designing & planning programs, projects, and initiatives
- Creating effective management structures & evaluation frameworks
- Organizing collective impact partnerships
- Developing funding strategies & proposals
- Understanding and communicating theories of change & related strategies
- Aligning stakeholders and managing projects
- Serving as a consultant

### WORK EXPERIENCE

#### John Boner Neighborhood Centers

Director of Grants | 2016-present

JBNC is a mid-size social services and community development agency and co-lead for the IndyEast Promise Zone. Shortly after the zone was designated, I was hired to develop and implement a strategy for increasing the flow of federal funds to the zone. Within a month of starting as Federal Grants Manager, I submitted JBNC's most ambitious grant proposal to date and led a team of IT professionals, data scientists, and social workers in a planning process to integrate data across 40 service providers. Within a year, I was promoted to Director of Grants, where I have served as lead designer and proposal developer for initiatives such as the 10 East Arts and Eastside Economic Recovery + Mobility Districts. Collectively, these initiatives have engaged over 60 partners, and programming commitments are in place for the next twenty years.

#### Green3 LLC

Project Manager | 2012-2016

Green3 was a small landscape architecture, urban planning, and environmental services consulting firm that served clients in towns and small cities across Indiana. I started there as an intern, built skills in community planning and grant and technical writing, and left as a project manager when the firm changed ownership. At Green3, I submitted 22 NEPA reports documenting project impacts to environmental resources and recommending mitigation strategies. I also secured over \$1.2 million in funding for community development projects, including the Millikan on Mass development. As a project manager, I supervised three staff and completed development plans for downtown connectivity and revitalization.

## JUNIOR WEB DEVELOPER

### WHEN I'M NOT WORKING

You can find me running 5k races, practicing yoga, riding my bike, baking, farming, and working on my 110-year old house in Rivoli Park. I also like to read a lot and recently read Decolonizing Wealth, The Color of Law, and Thich Naht Hahn's Mindfulness Essentials.

### WORK EXPERIENCE

#### Habitat for Humanity of Boone County

Volunteer Coordinator | 2011-2012

Boone County Habitat is a small nonprofit that builds affordable single-family homes while providing financial education to families as part of a sweat equity model. Habitat's volunteer board engaged me through AmeriCorps for a one-year term of service to build and manage a donor and volunteer database and engage volunteers. In this role, I built an eTapestry database to fit Habitat's needs, populated it with data, and managed it, making changes and creating functions and reports as needed. Before leaving, I trained the board and staff to use the database. In addition, I diversified strategies for volunteer recruitment to include new online platforms, coordinated volunteers assisting with home builds, and assisted with the organization of several fundraisers.

### ACADEMIC PROFILE

#### Colorado State University

BS Public Administration | Graduated June 2011

#### Massachusetts Institute of Technology

Candidate, BS Urban Planning | 2005-2008
